

HEMS Engine Repair Range

HEMS LTD is specialised to supply engine stand packages including all necessary adaptor plates for all engine and transmission makes and models that are in the current market place

We offer complete packages of engine stand to Cummins, Perkins, Isuzu, MTU, CAT, Komatsu, Volvo and many other OEMs

A significant feature of using a HEMS engine stand or transmission stand is in the increased ability of manoeuvrability. This saves considerable time when it comes to repair - up to 50% in labour hours - by eliminating non-productive handling procedures, this also reduces workplace injury. With a noted reduction in labour hours and costs, using HEMS engine stand and transmission stands equates to increased profitability.

Complying with all current working practices and safety regulations, HEMS engine stand and transmission stands cover capacities from 759kgs up to 20,000kgs and are suitable for new build, repair and refurbishment operations.

HM-ES 1050

HEMS smallest range of engine stand suitable for smaller applications with the capacity of 760KG

Capacity:	760kg (Floor Mounted) 760kg (Mobile)
Spindle Height:	876mm (Floor Mounted) 889mm (Mobile)
Dimensions(H*W*L):	1050, 460, 870mm (Floor Mounted)
Dimensions(H*W*L):	1050, 710, 1170mm (Mobile)
Weight (nett):	102kg (Floor Mounted) 110kg (Mobile)

HM-ES 1076

This stand is one of the popular models and it is suitable for many engine make/models i.e. MTU 460C, Cummins ISX15, M11, Perkins 403F, 1103, Komatsu 6D125, 140, CAT and many more engines available in the market place

Floor Capacity:	1520kg (Floor Mounted) 1520kg (Mobile)
Spindle Height:	914mm (Floor Mounted) 940mm (Mobile)
Dimensions(H*W*L):	1076, 460, 920mm (Floor Mounted)
Dimensions(H*W*L):	1076, 890, 1220mm (Mobile)
Weight (nett):	190kg (Floor Mounted) 210kg (Mobile)

HEMS Engine Repair Range

HM-ES 2000

This model is within our heavy duty range with the capacity of 3000 KG. Suitable for many engines i.e. Perkins 2206, 2506, CAT C9, C15, 3406, Cummins QSK15, QSK19, K19 and many more engines in the market

Capacity:	3000kg (Mobile)
Spindle Height (Vertical Position):	1000mm (Mobile)
Dimensions(H*W*L):	1150, 1372, 1372mm (Mobile)
Weight (nett):	350kg

HM-ES 6000

Heavy duty stand with the capacity of 5000 KG and suitable to handle many engines in the market i.e. Cummins K38, K48, MTU 12V4000, CAT 3508, C27, C32 and many more engines

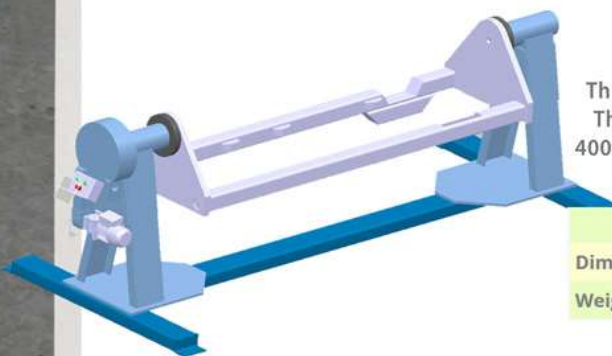

Capacity:	5000 KG
Dimensions:	3500mm long x 1600mm wide x 1200mm high
Weight:	1050 kgs.

HM-ES 7000

This model is within our heavy duty top of the range with the capacity of 7000 KG . This model has the option of motor drive for larger applications i.e. Perkins 4006, 4008, CAT 3512, 3516, Cummins QSK60, QSK 50, KV50 and many more engine models in the market

	Motorized
Dimensions:	1350mm high x 1850mm wide x 4500mm long
Weight:	1825 kgs

EN 13-25

HEMS largest model with the capacity of 20,000 KG Suitable for largest applications i.e. Cummins QSK78, QSK95 or QSK120
