

HEMS Hydraulic Pin Puller Kit

HEMS Hydraulic Pin Puller kit HE PP30/50 comes with both a 30ton and 50ton jack and is used to remove pins and fit bushings

Safety Features

- The spring balancer fitted on the trolley allows for the simple hands free operation
- Saving in time and labour
- Adopted by both repair shops and OEM's
- Suitable for onsite repairs
- Suits most of the construction machineries and brands
- Safe compared to traditional methods
- Aluminium alloy for light weight and easy handling

Single acting return hydraulic jacks are available in both alloy steel and aluminium, and have 50 and 100mm stroke which pin and bush can be replaced in one or multiple stroke. Jacks are center hole type and are placed on C-sleeves (one over the other) through which center rod passes and nuts are tightened at the ends. Tie rods and nuts are machined from an alloy steel material, hardened and tempered to increase strength and toughness

Each HEMS Pin Puller comes with tooling and a choice of
2-stage Hand Pump
Hydraulic Power Pack
Solenoid Operated Directional Control Valve

ADDITIONAL TOOLING

INCLUDED IN THE PACKAGE

- 30ton capacity single acting
- 50ton capacity single acting

ACCESSORIES CONSISTING OF

- Pull rod dia 33 x 1000 long with hex end and 2 nuts *Split nut with sleeve
- Pull rod dia 39 x 1000 long with hex end and 2 nuts *Split nut with sleeve
- Locator for 50t jack
- C' Sleeve dia 115 x 145 mm long
- C' Sleeve dia 175 x 145 mm long
- Threaded adapter M12 external x M33 internal
- Threaded adapter M16 external x M33 internal
- Threaded adapter M24 external x M33 internal
- Threaded adapter M30 external x M33 internal
- Threaded adapter M30 external x M39 internal
- Adjustable prop
- Die nuts for M33 & M39
- Hoist ram cap with viewing slot
- Carrying box for the jack and tooling without trolley
