

65 TON DUAL ACTION PRESS

Combined Portable Pin Press & Puller

HEMS HE-DAP/65T is a portable hydraulic tooling used for safe removal and fitment of many types of pins and bushings. **It can be used to press and pull both hydraulic pins and track pins, as well as master pins and bushes.**

It is a unique combination of 2 reputable toolings into 1 unit, making for a **effective, compact & portable solution** to many areas of service. Our Dual Acting Press can **press pins up to 52mmØ** and **pull pins up to 62mmØ**. It comes with an option of Manual Hand Pump of Dual Control (2-in-1)
